

AB

Akram BENCHOUCHE

Full Stack Web Developer

Profile

Creative and detail-oriented web developer with expertise in HTML, CSS, JavaScript, React with its different packages (redux, framer motion) and also next.js. Experienced in building responsive, user-friendly websites and integrating interactive animations using frameworks like bootstrap and framer motion. Passionate about delivering high-quality, visually appealing digital experiences. Experienced with developing comprehensive web solutions using modern frameworks and languages. Utilizes both front-end and back-end skills to create seamless and responsive applications. Knowledge of debugging and optimizing code to ensure high performance and user satisfaction.

Experience

Full Stack Web Developer

Algiers, Algeria (Remote)

01/2025 - 10/2025

- Used Javascript, SQL and HTML to develop app-solutions.
- Increased website performance by optimizing front-end and back-end code for faster loading times.
- Applied responsive design principles to ensure consistent display and functionality across a wide range of devices, including mobile phones, tablets, and desktop computers.
- Created easy-to-use APIs for third-party integrations, enhancing the functionality of existing applications without compromising on performance or security.
- Collaborated with in-house web designers to create sleek and innovative UI design.
- Proved successful working within tight deadlines and a fast-paced environment.
- Completed full redesigns of existing websites to improve navigation, enhance visuals and strengthen search engine rankings.
- Created powerful Content Management Systems to serve as interface for client.
- Collected, defined and translated user requirements into project designs and implementation plans.
- Took concepts and produced design mockups and prototypes to strengthen designs, enhance user experiences and improve site interactions.
